

Steirische Wissenschafts-, Umwelt- und Kulturprojekträger GmbH

## Mission Statement St:WUK

**We promote Science, Environment, Nature, Art, Culture and Archaeology in Styria.**

**We promote non profit and for the society important projects.**

**We create jobs in cooperation with our partners.**

**We attract people in the labour market.**

**We value and promote our employees.**

The St:WUK promotes projects with the focus on Science, Environment, Nature, Art, Culture and Archaeology as a non-profit organisation in the ownership of the Province of Styria.

In cooperation with the job center (AMS) and the Province of Styria, this is done in order to secure and create jobs on one side and to implement important projects for the society on the other side.

The target group of fixed-term employees are those who are far from the labour market: for instance returner, older people, people with disabilities and others. Sociopolitical and labour market political issues are realised in cooperation with our project partners.

We focus on our competent and committed employees, who enable us to achieve the defined goals and who live the principles of anti- discrimination, social integration, gender mainstreaming and non- profit status.
